Player 1

9	4	5
4	7	9
8	5	6

Player 2

7	9	4
8	2	8
5	7	6

You will need: 1 dice, 9 red counters, 9 blue counters

Instructions: Youngest player begins. Roll the dice. Subtract the number you roll from 10. If the answer is free on your board cover it with a counter. The next player then takes their turn. The winner is the player who covers all of their squares first.

Player 1

10	9	8
4	5	3
7	2	6

Player 2

1	7	10
4	0	9
8	6	2

You will need: 2 dice, 9 red counters, 9 blue counters

Instructions: Youngest player begins. Roll the dice and add the two numbers together. Subtract the answer from 12. If the answer is free on your board cover it with a counter. The next player then takes their turn. The winner is the player who covers all of their squares first.
